

REGISTER NOW! Lobby Trainings and Environment Day at the Roundhouse

As we embark on the 30-day budget session at our State Legislature, we will again carry out grassroots lobby trainings throughout the state. These trainings will provide you with an overview of key bills that our environmental community will be pushing forward (and in some cases pushing back on.). You'll hear from actual, local elected official about their experience at the Roundhouse and about what they think makes for an effective grassroots lobbyist. The training will help you learn how you can play a role in passing environmental legislation.

Santa Fe - Monday, January 6, 6 - 8 pm, Southside Public Library, 6599 Jaguar Dr., Santa Fe
Albuquerque - Wednesday, January 8, 6 - 8pm, St Mark's Episcopal Church, 431 Richmond Pl NE,
Las Cruces - Thursday, January 9th, 5:30 - 7:30 PM at Branigan Library, 200 E Picacho Ave Silver City -
Tuesday, January 14, 6 - 8 pm, Church of Harmony, 609 N. Arizona St. , Silver City
Aztec - Wednesday, January 15th, 6 - 8:00pm - Step Back Inn on 123 West Aztec Blvd

Please RSVP here - <https://tinyurl.com/Lobby2020>

We'll put our skills to the test on **Tuesday, January 28th** at Environment Day at the Roundhouse. We'll have information tables up and down the Halls of History at the Roundhouse. We'll provide several informational panels on the bills that we are promoting, in addition to a couple of short lobby trainings for people who want a refresher before we go in groups to speak with legislators. We'll visit Committee Hearings where our priority bills are being heard. And we'll have an event at noon in the Rotunda to hear from our elected environmental champions. You can also sign up for this event here - <https://tinyurl.com/Lobby2020>.

The key piece of legislation will be

- Passing Community Solar
- Passing a rooftop solar tax credit
- Passing an electric vehicle tax credit
- Passing a low income energy efficiency bill
- Passing a grid modernization bill
- Passing a memorial requiring a study of oil and gas liabilities for State Land office and State itself
- Helping to fully fund environmental agency budgets
- Stopping a tax on renewable energy production

Please circulate this email and let me know if you have any questions.

Thanks!
